

Cream Legbar

Origin:	<i>British</i>
Classification:	<i>Light, Rare</i>
Egg Colour:	<i>Blue, Green or Olive</i>
Temperament:	<i>Very sprightly and alert</i>
Eggs per year:	<i>170</i>

The Legbar comes in three varieties, gold, silver and cream. The cream variety is a crested breed which lays a green, blue or olive egg. Thereafter, the characteristics are the same for all three colours. The gold and silver legbars are barred leghorns whereas the cream legbar has had a dose of Araucana blood to give it its crest and egg colour
